Science fun at the Children’s House. This week will not disappoint as campers will get to experiment, build, create, problem-solve, get messy and explore some beautiful natural places—all the while having loads of fun. Ethan, our school director will join us as a special guest to share his knowledge and fun activities related to flight. This week will be sure to excite all our campers as we welcome Matt Blazek (a medieval historian), as our special guest. He will begin our week with a historical and engaging demonstration, guaranteed to captivate all our young friends’ imaginations. We will end our week with a fun medieval celebration which will include a processional of our dressed up campers, a light medieval snack feast as well as a few other surprises.

Session 3

Art Around the World

This week’s campers will travel their imagination to places around the world. Each day we will introduce art projects connected to a new area of the globe. Our campers will be exposed to many creative art projects, all the while learning a bit about our diverse and enriching world around us. We will end our week with an art show for all of our families.
